We Are Hiring!

DATA SCIENTIST

If you have an engineering background and want to establish yourself in the fastest growing industry, TuringMinds is the place for you.

Employment opportunities
in India or USA

Embark on a highly rewarding career in Data Science,
Machine Learning and Artificial Intelligence

Receive competitive stipend and incentives
based on your academic merit

Get nominated to a Master's degree from an
American University Partner

Are you Eligible?

- Engineering graduate with a score of more than 75%
- Interested in Computer Programming, Mathematics and Statistics
- Excellent Communication Skills

Selection Process

Qualifying test in Mathematics & Aptitude

Communications (JAM/Debate)

Final Interview

Career Progression - India

Year 1 – Data Science Trainee
Get trained by our Global University Partners

Year 2 – Associate Data Scientist
Start assisting our data scientists on projects.
Get a fully accredited US Master's degree

Year 3 – Data Scientist - L1
Start working on client projects

Year 4 – Data Scientist - L2

Year 5 – Data Scientist - L3

Year 6 – Senior Data Scientist
Your Service agreement clause is released

Your Employment Journey

Year 1 — **Upto INR 2,40,000**

Year 2 — **INR 5,20,000 – INR 6,00,000**
Get a Masters degree from our partner University in the USA

Year 3 — **INR 8,40,000**
Get promoted to Data Scientist L1

Year 4 — **INR 12,00,000**
Get promoted to Data Scientist L2

Year 5 — **INR 14,00,000**
Get promoted to Data Scientist L3

Year 6 — **INR 16,50,000**
You have Service Agreement Release Clause here

CTC are in per annum
for India Employment CTC includes the EMI
CTC is indicative and depends on the performance of the employee

Career Progression

Year 1 – Data Science Trainee
Our Global University Partners prepare you for the complex challenges in Data Science, AI and Machine Learning.

Year 2 – Student at the University
Work for 20 hours in a week on our projects.
Get a fully accredited US Master's degree.

Year 3 – ML Engineer
Start working on client projects.

Year 6 – ML Researcher
Your Service agreement clause is released.

Your Employment Journey

Year 1
Upto INR 2,40,000
Including your EMI.

Year 2
USD 600 per month + Health Insurance
Study at the University campus for a year.
Get a Masters degree from our partner University in the USA.
we pay your EMI.

Year 3
USD 60,000 – USD 75,000 per annum
Get promoted to Data Scientist L1.
We pay your EMI.

CTC is indicative and depends on the performance of the employee

The Performance Clause

Score More than 70%

- Get promoted to Associate Data Scientist.
- Start with a Salary of INR 35,000 per month at the start of second year.

Score between 60 – 70%

- You will be given a INR 15,000 per month stipend.
- 18 months grace period to redo all the exams and get 70%.
- Quarterly Assessments.
- Once you get 70%, become an associate Data Dcientist (INR 35,000 per month salary).

Score less than 60%

- No Stipend will be paid.
- 18 months grace period to redo all the exams and get 70%.
- Quarterly Assessments.
- If you fail to get 70% even after 30 months (12+18) , we terminate your services.
- You will be responsible for the reminder of the service agreement loan.

You become a
DATA SCIENTIST
Highest paying jobs globally

You get a fully accredited
US Masters degree
Free of Cost

TuringMinds Ai

Service Agreement

Integrating Learning at Workplace is our motto. We give the employees the right opportunity to advance their educational qualifications apart from working on the cutting edge solutions.

INDIA

Offices:
Hyderabad
Bengaluru
Mumbai

1 year training
5 years work in India

Service Agreement Value equivalent to the cost of acquiring a masters from a US University partner.

USA

Head office:
Detroit, MI

Offices:
Cleveland, OH
San Francisco, CA
Bahrain

1 year training in India
1 year training & 4 Years work in USA

Service Agreement Value equivalent to the cost of acquiring a masters in USA and the cost of living expenses for 1 year

TuringMinds will start repaying the employee's Service Agreement loan from Day 1 and throughout their entire working period. The expected work is a minimum of 5 years.

If the individual chooses to terminate the partnership before said period, EMI payments will have to be made by the individual.

TuringMinds.Ai

Being a Mechanical Engineer, I was always wary of getting into programming roles. The hire and train opportunity provided by upGrad-INSOFE has ensured that I get both the theoretical foundations and hands on experience.

Now, I am more confident that I can become a ML Engineer than ever before.

Syama Krishna Marthy
ML Engineer
TuringMinds.ai

The idea of building ML center of excellence by hiring fresh college graduates is an excellent opportunity for engineers who want to have a focussed career.

TuringMinds.ai ensured that each employee builds the repertoire of being a problem solver and decision maker by running them through a rigorous regimen.

Aishwarya Komanduru
ML Researcher
